Overview

IPEDS Student Financial Aid Component Overview - Public Academic Reporters

Welcome to the Student Financial Aid (SFA) component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Undergraduate Student Groups
You will be asked to report information for different groups of students.
 - Group 1: All undergraduate students
 - Group 2: Of Group 1, full-time, first-time degree/certificate-seeking students (FTFT)
 - Group 3: Of Group 2, FTFT students who paid the lower of in-state/in-district tuition rate and were awarded any grant/scholarship aid from the federal government, state/local government, or the institution
 - Group 4: Of Group 2, FTFT students who paid the lower of in-state/in-district tuition rate and were awarded any Title IV federal student aid

*For public institutions, include only those students paying the in-state or in-district tuition rate. For program reporters, include only those students enrolled in the institution's largest program.

- COA Revisions
Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component. Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.
- College Affordability and Transparency Lists
Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.
- Interactive Edits and Error Messages
SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.
- Context Boxes
You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

Changes to reporting:

The following changes were implemented for the 2022-23 data collection period:

- Degree/certificate-seeking and non-degree/certificate-seeking data items were added in Parts A and B to disaggregate financial aid award amounts reported in Part B by these student categories.
- New FAQs were added to clarify concepts.
- Minor wording changes were made for clarification.

Resources:

Section 1: Comparison Chart

Comparison Chart

Reporting Reminders:

- Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 is correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note:

- Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

IPEDS Student Financial Aid (SFA) Survey Summary

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Edit Report

Student Financial Aid

Source	Description	Severity	Resolved	Options
Screen: Part A - Establish your groups				
Screen Entry	The number entered is outside the expected range of between 1,749 and 2,137 based on data reported by your institution in the prior year Fall Enrollment survey. Please correct your data or contact the IPEDS Help Desk for assistance. (Error #7135)	Fatal	Yes	
Reason	Overridden by administrator. PY EF was reported incorrectly and will be revised in PYR. CY data is verified as correct. TMB			
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 538 and 1,112 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	During fall 2021 no CARES funds were available and CRRSA funds were 87% lower than the previous year, therefore there was less aid available per student and far fewer students received this type of aid.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 2,796 and 3,370 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	For this reporting year, 96% of group 2 students received PELL grant aid reflective of an increase in special circumstances allowed per DOE. Only 54% of group 2 students received PELL in the previous year. Since per-student PELL grant amounts are larger than other federal grants, the per-student average increased.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 5,125 and 5,699 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	For this reporting year, an additional \$97,650 of institutional aid was available to students which increased the average aid awarded to group 2 students.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 5,713 and 6,287 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	Last year, there was only one student in this group. This year there are no students in this group, so calculating average aid awarded per student is not possible.			
Screen: Part D - Enter Information about Group 3				
Screen Entry	The number entered is outside the expected range of between 26 and 46 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	Most of our campus housing is occupied by student athletes. The count of athletes living in campus housing decreased during the previous year because of the COVID-19 pandemic. This year's count reflects an increase in athletics and additional student housing capacity.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The number entered is outside the expected range of between 86 and 158 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	The number of group 4 students decreased by 33% from the previous year causing a similarly large decreases in students with this living arrangement.			
Screen Entry	The number entered is outside the expected range of between 98 and 182 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	The number of group 4 students decreased by 33% from the previous year causing a similarly large decreases in students with this living arrangement.			

Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason	Fewer funds were available during this reporting year and higher priority was given to those with greater need. The students in this income group typically do not demonstrate a high level of need and so received less funding by comparison.			
Screen Entry	The total number of Group 4 students who were awarded any Title IV aid across all income levels is outside the expected range of between 222 and 370 based on the prior year value. Please correct your data or explain. (Error #7333)	Explanation	Yes	
Reason	HEERF funds available to students in the prior year helped more students pay for college, increasing the number students in group 4 even while overall enrollment decreased. For the current reporting period, overall enrollment decreased and HEERF aid available to students also decreased. Both of these factors worked together to decrease the total number of group 4 students.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	Students in this income level typically have a higher expected family contribution and no Pell eligibility. For most of these students, Federal Work Study assistance is the only type of Title IV aid they receive, which is, at most, \$850 per term. (Line 04d, Col. 4)
