There were neither changes to the agenda nor any public comments.

Introduction & Presentation

Dean of Arts & Science Jason Aase and faculty member Martha Joyce introduced Volodymyr Dankiv who is a Fulbright Scholar in Residence at UCC. Mr. Dankiv is from Ukraine and visited Roseburg three years ago. He will be teaching part-time at UCC.

Dennis O’Neill, UCC Foundation Director, presented information on the status of the funding campaign for the Health, Nursing, & Science building. The campaign is going well having raised \$3.248 million of the \$5.4 million goal. Answers are still pending for \$2.8 million in submitted grant fund requests. Meetings with private donors are in the process of being scheduled. Mr. O’Neill said he is very confident of reaching the goal and is excited about the funds that have been raised. He is hearing encouraging things throughout the community about this project and expressed gratitude to Directors Tamm, Miller, and Rice and President Olson.

ASUCC Report

Kristapher Yates, ASUCC President, shared about the ASUCC executive officers recently attending an OCCSA Leadership Conference. He has also been involved on the Student Fees Task Force.

ACEUCC Report

Judy Ode, ACEUCC President, was introduced by former President Debbie Hill. The group has a new secretary, Becky Chapel. ACEUCC recently had a successful retreat at the Winston Community Center.

UCCFA Report

The new UCCFA President, Marie Gambill, reported on the returning faculty and the anticipation of Inservice. A Faculty Retreat will be held during the first week of Inservice.

President's Report

Dr. Olson provided an update to the Board on the Governance Institute of Student Success conference recently attended by himself, Directors Bell and Yetter, and Robynne Wilgus. Dr. Olson shared one of the outcomes of the meeting is a desire to add a Student Success Update to each Board meeting; Dir. Bell highly recommended the regular segment. Chair Becker recognized that staff and faculty are doing a lot towards student success and the agenda item will be helpful. Dir. Miller advised that success measures line up with other initiatives and strategies. Each Board member will receive a copy of the book, Making Good on the Promise of the Open Door, which was distributed at the conference. There are a couple of Board members yet to complete the self-evaluation survey; the results will be updated once everyone has completed it. Dir. Bell shared one of his "take-aways": the new generation doesn't do "optional", they do "mandatory"; this is the direction in which the college should move. There will be follow up on a mini-retreat for the Board to further discuss the outcomes from the conference.

OCCA Board Report

Dir. Bell stated that James Sink is the new Communications Director for OCCA and will be compiling board meeting information from all Oregon community colleges into a regular newsletter. HECC is working on developing a two-year totally supported college education for a limited number of people; this would increase the community college pipeline of students. The students would be required to take at least six credits and be under the age of 24. The average age of a community college student is 29; about 60% of credit students are under 25. OCCA is stating the community colleges don't have the room to accommodate more students. UCC's recent report from Mahlum indicates under-population of some of the rooms which is a good thing from our point of view on this issue. On the other hand it would be beneficial to have more money come to the college. The legislature still needs to weigh in on the proposal.

NEW BUSINESS

In noting that each year the Board establishes goals Chair Becker presented the Board goals for the 2014-15 year. She suggested approving the goals and also to consider adding a student success goal at the next Board meeting. A couple of small changes were recommended: change "workforce" to "staff" in goal two; change "on" to "of" in goal three.

- Continue to enhance the relationship between the UCC Foundation and the UCC Board of Trustees.
- Assess and improve internal communications and cultural competencies and focus on internal staff development.
- Continue efforts to initiate construction for the Health, Nursing, and Science building and implement pieces of the Master Plan.

- Assist staff in creating a useful dash board for monthly meetings.
- Continue to monitor political/legislative actions and advocate for UCC.

Motion: I move for approval of the Board goals as listed in the agenda with the noted changes.
Motion by Dir. Tamm, seconded by Dir. Miller and carried unanimously.

The findings of the Student Fee Task Force were presented. Rebecca Redell, Chief Financial Officer, introduced Budget Coordinator Micque Shoemaker who then shared the information. Additional task force members were ASUCC President Kristapher Yates, Student Life Director Marjan Coester, Dean of CTE Jesse Morrow, IT Director Dan Yoder, and Lee Paterson representing the community. Ms. Shoemaker reviewed the report which had been sent out to the Board prior to the meeting and is attached to the permanent minutes. Updates were given to a few of the figures: SWOCC tuition is \$87; Lane's tech fee is \$5.50. Dir. Tamm suggested simplifying student fees by rolling the global credit fees into a universal student fee; the possible legacy fee could also be added to that figure. Responding to Dir. Rice's question regarding the purpose of the various fees, Ms. Redell explained fees, generally, go into a self-sustaining fund for different purposes: the Tech Fee maintains computer labs, equipment, and Banner; Program Fees are for supplies and certifications; the Student Success fee provides funding of the Learning Skills Director and Peer Mentors; outdoor activity fees cover lift tickets, transportation, and other associated costs. Fees that have been approved to pay for "X" will only be spent for "X" items out of the correlating self-sustaining fund. Ms. Redell stated there is only one fee she is aware of that goes into the general fund and it is the Registration Fee. Chair Becker, Dir. Tamm and Dir. Rice recommended informing the public and students of why the fees are collected and how the funds are spent. Dir. Miller appreciated the work of the task force and the scenarios given in the presentation. It was confirmed that student input will be provided at the next Board meeting. Chair Becker thanked the task force for their efforts.

The recommendation for exemption from the Competitive Bidding Process was presented by Ms. Redell and Linda Spaccarotelli, Purchasing Manager. It is recommended by staff that the College use an alternative contracting method for construction of the Health, Nursing, & Science building. The Request for Proposal (RFP), utilizing a Construction Manager/General Contractor (CM/GC) method with a Guaranteed Maximum Price (GMP) is the recommended method to be utilized. The use of this method requires that the Board, acting as the Local Contract Review Board, must hold a public hearing for the purpose of receiving public comment before adopting findings and approving the College's use of the CM/GC method as an exemption from the standard competitive bidding process. Additional time for public comment is being made available at 7:00 p.m. this evening. Any Board decision will be pending any public comments received at that time. The findings for the exemption are attached to the permanent minutes. Ms. Redell confirmed that as of the current meeting no one had contacted the College in this regard. Chair Becker clarified the need for a special Board meeting to review any comments presented. Dir. Tamm noted the CM/GC method still requires RFP's.

Motion: I move for approval of the CM/GC method as explained pending any comments that may be presented at the 7:00 p.m. hearing. **Motion by Dir. Miller, seconded by Dir. Weikum and carried unanimously.**

Resolution No. 1 – Approval to Spend Funds

Resolution No. 1 was presented by Ms. Redell. An increase in appropriations in the Special Revenue Fund – Grants and Contracts is being requested. Tamra Samson was awarded \$8,600 from the Oregon Community Foundation to provide enhanced and realistic learning situations using manikins that produce heart, lung, bowel, and voice sounds via a handheld (sim-pad) device for approximately 150 nursing students. April Hamlin was awarded a one year \$36,000 grant for the Community College Student Assistant Grant from the State of Oregon CCWD.

Motion: I move to approve Resolution No. 1, Approval to Spend Funds as presented. Motion by Dir. Tamm, seconded by Dir. Rice and carried unanimously.

Retirement requests (attached to the permanent minutes) were presented by Human Resources Director Lynn Johnson. Linda Spaccarotelli's last day of service to UCC will be January 2, 2015; Ms. Spaccarotelli has been working at UCC for 18 years. Susan Windsor's last day of service to UCC will be on December 31, 2014; Ms. Windsor began full-time employment at UCC on March 16, 1988, serving over 27 years in her position. Ms. Johnson noted Ms. Windsor's offer to stay on with UCC until a replacement has been found.

Motion: I move to approve the retirement requests of Linda Spaccarotelli and Susan Windsor as presented. Motion by Dir. Weikum, seconded by Dir. Yetter and carried unanimously.

There were no Board comments.

Umpqua Community College Campus Climate Survey 2014

EXECUTIVE SUMMARY

There is evidence of positive change in the campus climate from 2012 to 2014 with the greatest gains realized in the focus areas of Entire Organization, Support of Employees, Organizational Communication, and Organizational Decision Making. Favorable increases in responses were indicated in seventeen of the twenty-three questions in these sections or (2/3rds of the survey questions). Individual Statement Focus Areas yielded the following respondent outcomes when compared to respondent outcomes in 2012:

Personal Work Environment: 6 out of 9 questions reflect positive respondent outcomes

Entire Organization: 4 out of 5 questions reflect positive respondent outcomes

Support of Employees: 3 out of 6 questions reflect positive respondent outcomes

Organizational Communication: 4 out of 6 questions reflect positive respondent outcomes

Organizational Decision Making: 4 out of 6 questions reflect positive respondent outcomes

Organizational Management Practices: 3 out of 8 questions reflect positive respondent outcomes

Out of thirty-nine total questions, and across all Employment Categories, twenty-three questions show increases in positive responses, three questions indicate no change from 2012 to 2014, and thirteen show negative respondent outcomes from 2012 to 2014. The focus area in need of the greatest attention is Organizational Management Practices where five out of eight questions generated negative respondent outcomes from 2012 to 2014.

Variations in Employment Category participant proportions occur between survey years. In 2012 the campus was comprised of 8% Administrative/Exempt employees, 35% Classified staff, and 57% Faculty; in 2014 the campus was comprised of 9% Administrative/Exempt employees, 38% Classified staff, and 53% Faculty. In 2012, 18% of the Administrative/Exempt employees participated in the survey, 34% of Classified staff, and 48% of the Faculty. In 2014 16% of the Administrative/Exempt employees participated in the survey, 50% of the Classified staff, and 34% of the Faculty. There were 423 (both full time and part time) UCC employees in May of 2012 and 179 employees participated in the survey. In 2014 there were 464 employees in May, and 129 employees participated in the survey.

Faculty and Classified staff by far agree the most that the campus has experienced positive change from 2012 to 2014. Faculty in 2014 indicates negative responses to just 10 of the 39 questions presented, and Classified Staff indicates negative responses to just 13 of the 39 questions presented. Administrative/Exempt respondents in 2014, however, indicates there is less positive change from 2012 to 2014; reporting negative responses in 23 of the 39 questions presented. Employment turnover rates from May 2012 to May 2014 are as follows: 10 Administrative/Exempt employees (1 pt, 9 ft), 98 Classified staff (73 pt, 25 ft) and 167 Faculty (153 pt, 10 ft). It is increasingly difficult to attract qualified Administrative/Exempt candidates to Douglas County and several key Administrative/Exempt positions remain unfilled resulting in compression of duties. This may have some bearing on the decrease in Administrative/Exempt positive responses.

In 2014 Administrative/Exempt, Classified Staff and Faculty unanimously agree there has been positive change from 2012 to 2014 in the following 9 out of 39 questions:

My workplace functions so that I can see the relationship between my role and the goals of the college? **77% agree in 2014, 74% agree in 2012**

Interpersonal conflicts interfere with my ability to resolve disagreements? **72% disagree in 2014, 65% disagree in 2012**

I have a lot of freedom to determine how to do my work? **95% agree in 2014, 93% agree in 2012**

Classified and Faculty leadership and College management work well together? **64% agree in 2014, 48% agree in 2012**

My work is appreciated by the College? **70% agree in 2014, 68% agree in 2012**

I feel informed regarding issues that face the College? **64% agree in 2014, 58% agree in 2012**

The mission and values of the college are clearly and consistently communicated? **67% agree in 2014, 50% agree in 2012**

Task forces and committees are used effectively to solve problems and make decisions? **54% agree in 2014, 34% agree in 2012**

The Board of Trustees is responsive to input from the college community? **46% agree in 2014, 27% agree in 2012**

Length of Employment and overall agreement to each question cannot be compared to the responses from 2012 as the Length of Employment questions were drastically different between the two survey instruments. However, comparison data by Length of Employment does indicate employees with 0-3 years of employment and employees with 10 or more years of employment are more positive than employees with 4-9 years of employment.

TASK FORCE RECOMMENDATIONS:

Environment:

Stay the Course – affirms that the campus is moving in the right direction.

Engage in a forward-looking process that reviews, updates, and affirms the College organizational structure.

Support of Employees:

Develop strategies to address time and workload stressors in administrative services and business functions.

Organizational Communication:

President continues personal campus updates via email.

Regularly provide information to the campus community regarding the status of funding, enrollment, program development/maintenance, planned facilities updates or changes, and environmental/regulatory factors impacting the college.

Organizational Decision Making:

Governance – revisit the purpose and make-up of each campus standing committee to insure each committee is relevant and contributing to the success of the college.
Disband or consolidate where appropriate.

Ensure, where appropriate, that impact analysis of proposed changes includes input from the employees affected or providing services and conducting organizational business.

Organizational Management Practices:

President more visible on campus.

Develop strategies for maintaining continuity within departments and programs in the event of staff turn-over/Cross-training.

Continue to bring employee groups together for training with the goal of insuring consistent understanding and application of Board Policies in support of good leadership and management practices.

You will note a green sheet in the Board packet has been designated for Student Success. This is in keeping with the Board's request to have a Student Success focus topic at each of our meetings. We're hoping that from this presentation we will identify specific topics for the next few Board meetings.

We had a very successful exit conference with our auditor last month. The Board will have the official presentation in November; however, I wanted you to have a moment to review the cover sheet for the 2013-14 UCC audit. I would like to commend the finance and administrative staff for the outstanding job they continue to do. Their work this year will be result in one of the cleanest audits ever conducted by Pauly Rogers. I look forward to their full report in November.

Kudos are to be extended to UCC faculty and others who are participating in a community lecture series which will commence sometime in November. I would remiss if I attempted to individually identify faculty members behind this idea, so I won't; however, a tentative schedule is attached for your review. You will find the topics are broad and reflect a diverse collection of ideas which will be presented during the 2014-2015 lecture series. This is a significant way for the campus to reach out and serve as an educational and cultural resource for our community.

Last month I had the opportunity to present the UCC update to the ESD Board of Directors. They were very complimentary of the way in which UCC is working with the collective school districts. At the next Superintendents meeting on Oct. 14 a group of UCC staff will be providing information on the strides we have taken to better connect with our K12 partners. Several of

the superintendents have approached me since they became aware of this October presentation and are excited with the ideas they're hearing and the engagement of their high school students in UCC outreach.

In the next few weeks Oregon will host two statewide meetings that may have interest to our Board. The first is the OCCA annual conference which will take place Nov. 5-8 in Sunriver and a full agenda will be presented to the Board upon its release. The next conference is sponsored by OSBA and will be held Nov. 13-16 at Portland Marriott Downtown Waterfront. This typically does not involve a wealth of programming related to higher education; nonetheless, I make you aware of it should there be specific seminars you may wish to attend. Upon receipt of the full agenda I will be determining which dates, if any, I will be attending.

AUDIT DISCUSSION POINTS

- 1) During our preliminary audit visit during the spring we noted a few matters for discussion, which have not been repeated on this memo. None of those matters are considered to be significant enough for reporting to the board.
- 2) During our testing of property taxes we noted an immaterial calculation error with respect to the information gathered from the County, which the Finance Department corrected. It appears that there had been some formula error in a prior year that rolled forward and was caught this year. The financial report will now match the County records. This matter goes back to the prior auditors years ago and the method they used to calculate the balance.
- 3) UCC implemented a new accounting pronouncement, GASB Statement 65 - *Items Previously Reported as Assets and Liabilities*. The effect of this change in accounting principles will show up in your report as a "Restatement" of beginning net position. The most significant change resulting from this new pronouncement is that costs associated with the issuance of bonds (i.e. legal, financing, and rating agency costs) are not considered to be costs of the period during which the new debt is incurred, rather than costs to be capitalized.

OCCA DIGEST - September 26, 2014

SIGN UP TODAY FOR ANNUAL CONFERENCE!

Don't miss out!

Registration is now open for the 2014 OCCA Annual Conference, "Establishing a Foundation for Student Success." This year's event will be Nov. 5-8 in Sunriver and will feature sessions with national experts, education leaders and Oregon policymakers.

The Silver Sponsor for this year's event is D.A. Davidson & Co.

In Oregon and nationally, education leaders agree that higher education is one of the most important keys to reaching the middle class and staying there ... yet public investment in college and university education is lagging. What are the obstacles to student success in Oregon? And with the political and partisan calculus settled in the November general election, what education bills will be on the radar for the 2015 session?

Make plans now to join us! Register online at <http://www.occa17.com/annual-conference>

Note: The formal conference activities begin the evening of Nov. 5. A meeting of the Oregon Presidents' Council will be at 10 am on Nov. 5.

We will be doing more personalized academic skills sessions to develop students weak areas in academic classes or in test preparation. This will involve a detailed monthly check-in, as well as scheduling time to work on the area of most need each month. In addition, students explored various college fact books to discover the differences between community colleges, public universities, private universities and out-of-state options.

Sabbatical Leave Plan

1. **What do you plan to accomplish with your sabbatical?** (criteria to be considered in the selection of a sabbatical leave candidate: admission to a recognized college, university, technical school or on-the-job training; personal study, research writing; travel to better the applicant in his/her own instruction field; other considerations that are determined to be relevant to the candidate's assignment or to met the instructional and College strategic priorities)

1. In Spring 2013, I was granted a part-time sabbatical, meaning release time from half of my teaching duties in to pursue the goals of eventual publication of my novel, *El Canto de Concepción*, and research in support of a second writing project, whose working title is *Pilgrimage*. I asked for a part-time sabbatical in order to continue teaching the two courses of French 103/203, as it would have been difficult to find a qualified French teacher, and I did not want to put the French program in jeopardy. Therefore, I am now asking to be granted the second half of my sabbatical for this Spring 2015, so that I can continue to work on the two writing projects listed above.

The release from half of my teaching duties in Spring 2015 would allow me to begin the writing of *Pilgrimage*, a set of inter-connected short stories which outlines the historical migration of people from the North African continent onto the Iberian peninsula, and then across W. Europe and over to the Americas. Based on the lives of women characters who are highlighted during a particular point in time, I will attempt to show the interrelatedness of all peoples throughout history and place.

It will also allow me to continue the marketing of my novel, with eventual publication as the goal.

2. **How do you anticipate that your sabbatical plan will make you a better instructor/employee? How will your sabbatical plan improve your teaching and student learning? How does your sabbatical plan help you meet your professional development plan goals?**

History, literature and culture are central components of a world language curriculum. All language students should be introduced to the cultures from which the target language emerges. My research into the migration of the "Moors" into the Iberian peninsula, and then, the secondary and tertiary migrations of those peoples' descendants into Europe will further my knowledge of these historical threads and cultural resonances that to this day inform both the Hispanic and European peoples and cultures.

As to the goal of eventual publication of my novel, I believe this serves as a role model to our students that literature is accessible, can be part of our contemporary lives, and that it serves as a vital tool in our understanding of ourselves as humans together on this planet.

This sabbatical plan meets my Faculty Development goal of ongoing enrichment and education, as pertains to the Hispanic language, history and culture; and secondly allows me to meet the goal of staying competitive in the current academic climate of "publish or perish." As a community college instructor with a significant teaching load, finding the time for writing and publishing is difficult, if not insurmountable at times.

3. **What activities will help you meet the anticipated accomplishments of your sabbatical plan?**

This sabbatical will offer me the opportunity to devote half of each work day to the writing of the short stories that will make up the structure of *Pilgrimage*. It will also allow me to do further research into the different migrations of the peoples throughout the Iberian Peninsula and into mainland Europe. As well, I would be able to continue to send out letters of query to publishers and agents, toward the eventual publication of the novel, *El Canto de Concepción*.

4. **What is your anticipated timetable for accomplishing the activities of your plan?**

Using the outline of *Pilgrimage*, (see enclosed) as a template, I would hope to write at least three of the stories included in the project. This is a very conservative estimate of what I hope to accomplish, but the writing of a story from first draft to finished product cannot be predicted in terms of length of time needed.

My goal would be to write for at least three hours per day, and to spend one hour per day on marketing the current novel.

5. **What documentation will you provide for your activities and the completion of your sabbatical plan when you write your sabbatical report?**

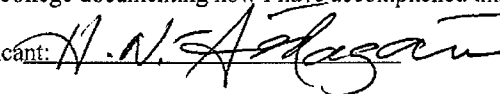

I will provide copies of the stories written to date for the project, *Pilgrimage*. Secondly, I will provide a written report detailing the steps taken toward publication of *El Canto de Concepción*, including copies of letters of inquiry, and correspondence from my contact list.

6. **Is there any additional information that you believe would be helpful for the readers to understand your proposal?**

Due to reduced demand for third-term language classes, the two sections of Spanish that I would normally teach will be absorbed by my colleague, Nicolas Tratz. There will be no added costs to the college.

This sabbatical plan, which I will complete, will be of mutual benefit to the college and to me. I understand that any significant change must also be approved by the VPI. I further understand that I will submit a written report to the college documenting how I have accomplished this plan upon my return.
