Section 1: Comparison Chart

Comparison Chart

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 are correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note: Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

Enrollment for academic year 2014-2015 stabilized at pre recession levels. Completion rates trended down as the majority of students that started their programs during the great recession, completed, transferred, or re-entered the work force. The current completion numbers are reflective of the lower enrollment of the past two years. This is a normal enrollment progression as the college experiences typical demand within our service area.
