

## EARLY CHILDHOOD EDUCATION

### Infant Toddler Pathway Certificate

#### PROGRAM MISSION

The mission of the UCC Early Childhood Education Infant Toddler Pathway Certificate program is to partner with our community to prepare high quality early childhood education providers to meet the cognitive, social, emotional and physical needs of a diverse population of children ages birth to five by offering opportunities for students to both learn theory and put theory and skills to practice in early childhood settings.

#### PROGRAM DESCRIPTION

The Early Childhood Education Infant/Toddler Pathway Certificate program is designed for students just entering the early care and education field, those who wish to focus their education and work experience with infants and toddlers, and those already employed in child care, but who need an immediate certificate to continue working in an Oregon licensed facility. Students completing the Infant Toddler Pathways certificate will achieve Step 7.5 on the Oregon Registry Steps for the Oregon Center for Career Development in Childhood Care and Education. Graduates may continue to seek the One-Year Certificate, AS, or AAS degree seamlessly, since all of the certificate classes are wholly contained within the degree program.

#### PROGRAM OUTCOMES

Students who successfully complete the Early Childhood Education Infant/Toddler Pathway Certificate will be able to:

1. Create healthy, respectful, supportive and challenging learning environments for young children based on knowledge of child development
2. Create respectful, reciprocal relationships that support and empower families and involve all families in their student's development and learning
3. Develop and use effective and responsible assessment including observation, documentation and other appropriate tools in partnership with families and professional colleagues to promote positive outcomes for each child
4. Use a whole array of developmentally appropriate approaches, instructional strategies, and tools to connect with children and families and positively influence each child's development and learning
5. Design, implement and evaluate meaningful, challenging curriculum that promotes comprehensive developmental and learning outcomes for every young child
6. Demonstrate behavior reflective of ethical guidelines and professional practices associated with early childhood careers

#### CAREER CONSIDERATIONS

Students in the Infant/Toddler Pathway certificate program receive education and experience specifically designed to support their work with infants and toddlers age three and under. Our Infant/Toddler Pathway certificate program focuses on seven crucial learning outcomes to help prepare students for working with young children and their families.

Courses offered in the Infant/Toddler certificate program are also excellent for parents, expecting families, and anyone associated or working with families and young children.
