SPOTLIGHT ON UCC'S NURSING PROGRAM

Amelia Snow – UCC Student

By the time Amelia Snow graduated from Crook County High School in Central Oregon she had already decided to join a nursing program. After hearing from others how exceptional the program was at UCC, she visited the campus, met staff and immediately knew this was the place she would pursue her dreams. The day before classes began, Amelia moved to Roseburg, and the next day she was hard at work in a local restaurant and attending classes at UCC.

It's hard not to be pulled along by the enthusiasm in Amelia's voice as she details her future plans. "I only have one term left before I receive my Associate of Applied Science degree in nursing! From there a Bachelor's degree through Oregon Health and Science University becomes my next step. Being a nurse has been my goal for such a long time. After I leave UCC, I plan to continue my education and go as far I can. Starting school at a community college is a great first step, no matter how big your goals happen to be".

Amelia hopes she will be able to somehow give back to UCC. "Without UCC", she says "I would not be this close to reaching my goals." She openly talks about encouraging anyone who is interested in going to college to give UCC a chance. "I don't think people in our community, especially high school students, realize what a great school UCC is." Her effortless recruiting style shines as she enthusiastically shares her views on transfer opportunities. "Even students who want to go to a university should start out at UCC. The classes are inexpensive (compared to other colleges), the small class sizes allow for more student-teacher interaction, and the campus is beautiful!"

A few words for students define Amelia's personality best. "Collaborate! Definitely step out of your comfort zone and get to know other people. Get comfortable working with other people. College is hard! Studying in groups and having a friend to discuss the material with will help you succeed." And succeed she will, the young woman whose reason for becoming a nurse is to "make people comfortable" has a bright future ahead of her. Keep reaching for that next goal Amelia, you'll do just fine.

April Myler – Director of Nursing/Department Chair

A chance visit with neonatal intensive care unit nurses in Eugene helped April Myler visualize her path to the nursing program at Umpqua Community College. She recalls setting out a personal goal to start prerequisites for nursing school by the time her newborn daughters turned two years old and her son turned eight.

April honestly admits that having been 10 years removed from high school and then considering starting college brought her a level of anxiety. "My biggest fear of returning to college was my lack of mathematical knowledge. Mike Matteo, my first math instructor on campus, helped me to discover that I could defeat my fear of math, and also be good at it! Since graduating in 2008, April has gone on to receive her Bachelor of Science in Nursing from Oregon Health Sciences University in 2009, and her Master's Degree in Nursing Education in 2015 from Western Governors University.

As the current Director of Nursing/ Department chair for the college since January of 2016, April takes pride in giving back. "My UCC and Nursing Program family have done so much for me, I'm proud to give back to the campus and watch other students improve their futures through education. I hope to work for UCC for many years and along the way I will work diligently to continuously improve the learning environment for our students." The opening of the new Bonnie J. Ford Health, Nursing & Science Center next fall will provide a place where April, staff and students can all be together on campus at the same time. Classrooms, learning labs and simulation labs all under one roof will make the UCC nursing program the best it can be.

Matthew Gatton – Perioperative Nurse

Between 2005 and 2010, Matthew Gatton was in and out of four different colleges trying to find direction in life. At one point he obtained a nursing assistant certification that would serve him well after he and his new wife made the decision to move back to her hometown of Roseburg, Oregon. Matthew explains, "Since I was still unsure of exactly what I wanted to do with my life, and in need of work, I obtained a position as a CNA in a care center/rehabilitation facility. During my time there I gained a lot of valuable experience and was struck by the realization that I wanted to continue my work in the nursing field, but at the next level. After being accepted into the nursing program and getting my prerequisites done I began my journey into the UCC Nursing Program."

Matthew credits multiple instructors that helped influence and encourage him along the way. From clinical instructors like Patrice Coates, who pushed him to strive for more than status quo, to April Myler, who supported and encouraged him to succeed and make it through stressful situations. "I never felt like I was on my own or without resources I could reach out to."

After graduating from Umpqua Community College, Matthew went to work as a perioperative nurse at the Oregon Surgery Center. He is currently cross-training to work in the operating room of the surgery center, as a circulating nurse. "I feel that part of being a great nurse is ensuring the community knows that healthcare professionals care about them and have their well-being in mind. My personal goal is that patients and family members know that I care about them. I strive to deliver care that I would want my friends and family to have."

PARENT & CHILD AQUATICS - COMBINED LEVEL 1 & 2

(6 months-3 years)*

This is a combination of American Red Cross Parent & Child Levels 1 and 2, and introduces parents and children to basic aquatics skills. Parents are taught to safely work with their child in the water, including how to support and hold them and to encourage participation and trying new skills. Children receive a foundation for learning to swim. **Parents are actively in the water with the children.** *All children wearing diapers must wear swim diapers.

PRESCHOOL AQUATICS

(ages 4-5)

The American Red Cross preschool program is for beginning swimmers (ages 4 and 5) with little or no prior swim instruction. The goal is to help children feel comfortable in the water without a parent. Children learn basic aquatic skills, such as entering and exiting the water, blowing bubbles through their mouth and nose, going underwater, bobbing, gliding, and staying safe. Skills presented in Preschool Levels 1 and 2 are done with instructor assistance, and set the foundation for Level 3 instruction.

LEARN-TO-SWIM

(ages 6 and up)

Level 1 - Introduction to Water Skills

Level 1 is for beginning swimmers who have had very little or no swim instruction. The focus is on developing elementary aquatics skills, positive attitudes, good swimming habits, and safe practices in and around the water. Level 1 skills include: safely entering/exiting the water, blowing bubbles, bobbing, opening eyes underwater to retrieve submerged objects, front and back floating and gliding, alternating arm and leg action, combining stroke movements, and treading water. Most skills are performed with support.

Level 2 - Fundamental Aquatic Skills

The goal of Level 2 is to help swimmers gain familiarity with fundamental skills and achieve success without support. Swimmers learn to float and glide on their front and back, develop simultaneous and alternating arm and leg actions, and lay a foundation for future strokes, all without support from the instructor. Students work on floating, gliding, flutter kicking, front and back crawling, turning over from front to back and back to front, retrieving objects, and jumping into water over their head.

Level 3 - Stroke Development

Level 3 builds on the skills in Level 2 through additional guided practice. Students should be very comfortable in the water and be able to swim with combined strokes on front and back without assistance. Level 3 focuses on making swimmers comfortable and safe in deep water, teaches front crawl, elementary backstroke, breath control, and submerging, builds on the fundamentals of treading water, introduces scissor and dolphin kicks, and reviews the rules for headfirst entries (seated entry dives).

Level 4 - Stroke Improvement

The goal of Level 4 is to develop confidence in the strokes and improve overall aquatic skills. Students improve skills and endurance for freestyle and backstroke, are introduced to breaststroke, sidestroke, and the basics of turns, and continue work on headfirst entries. Students must be comfortable in deep water.

Level 5 – Stroke Refinement (1 Hour)

The goal of Level 5 is to coordinate and refine strokes in swimmers who are competent in all strokes and basic diving techniques. Level 5 swimmers focus on refining their techniques, incorporating flip turns, and increasing their swimming distance. Students should be able to do one length of front and back crawling, know the elementary back, and tread water for one minute.

Level 6 – Swimming and Skill Proficiency (1 hour)

The goal of Level 6 is to refine strokes to allow students to swim with more ease, efficiency, power, and smoothness at greater distances and to increase endurance and aquatic fitness. Level 6 has three options – Fitness Swimmer, Fundamentals of Diving, and Personal Water Safety.

PRIVATE SWIMMING LESSONS

Individual instruction is available at all levels in 30-minute sessions. Private lessons allow swimmers to benefit from a one-on-one environment, work on a specific set of skills, or address special needs or concerns that may limit the swimmer's ability to participate in a group setting. Semi-private lessons are available for up to three children, upon request and for a small additional fee.

WATER SAFETY INSTRUCTOR AIDE (1 HOUR)

Participants learn how to assist Water Safety Instructors (WSI) in teaching American Red Cross swimming classes. Participants must have the skills or hold a basic-level certificate for Learn-to-Swim Level 4. They must also exhibit a strong sense of maturity and responsibility and be comfortable communicating and working with small children. WSI-Aides must be at least 12 years old. This course is only available in Session 1.

SNORKELING

This class is open to anyone 10 years and older. Students become familiar with a mask, snorkel, and fins for exploring the underwater world. This course is only available in Session 4.

SWIM CLASS INFORMATION AND POLICIES

Session Length and Class Time:

All swimming sessions are eight days (Monday-Thursday). Level 1-4 classes are 30 minutes. Level 5 and 6 classes are 60 minutes.

Instructors:

The majority of UCC instructors are local high school and college students who are American Red Cross certified instructors, have experience teaching swim lessons, or are accomplished swimmers themselves. Instructors follow the American Red Cross Water Safety Instructor guidelines and are certified in First Aid, CPR and AED.

Every attempt is made to ensure students learn from the same instructor(s) during the course of a swim session. However, when an instructor is ill, it may be necessary to use a substitute.

Concerns regarding pool instruction should be directed to the head lifeguards and/or pool director.

Attire:

Swimsuits are required. All students not toilet trained must wear a swim diaper. Students dressed and ready to swim before the designated class time.

First Class:

Parents/guardians and students will meet in the pool bleachers for the first five minutes with the instructor(s). Students will be assessed to ensure they are in the appropriate level. If a student's skill level is not appropriate for the level in which he/she is enrolled, the student will be moved appropriately.

Last Class:

The last day of class is "graduation", when students will receive their certificates and participate in recreational swimming.

Class Completion & Level Progression:

Without practice, swimming skills may diminish. If several months have elapsed between swim lessons, it may be necessary to place a student in a class that he/she previously passed due to the skill level at the time of enrollment. Students should be able to perform previous level skills before moving on to the next level.

Completion or participation certificates are handed out the last day of class. In addition, a copy of a blank class progression certificate listing the level skills is available from the pool director. Keep all certificates for an accurate record of student(s) progress.

Missed Classes:

A student who misses class(es) will not be able to make it up; this may impede the student's ability to pass the level in which they are enrolled.

If a class is unable to meet in the pool (due to an electrical storm or a pool contamination, for example) in-classroom instruction on water safety will be substituted.

Reminders for Parents/Guardians:

Parents/guardians are asked to drop off and pick up their student(s) on time.

Parents/guardians are asked to observe classes from the bleachers and to remain off the pool deck. If a parent/guardian creates a distraction to the class, the pool director reserves the right to request that the parent/guardian relocate.

Unless otherwise deemed necessary (see above), parents/guardians are asked to remain in the pool area throughout the entire lesson in case of an emergency (or if the swim class student needs to use the restroom during class).

Parents/guardians are asked to have their swim class student(s) use the bathroom before each class. If a student needs to use the bathroom while the class is in progress, the instructor will signal the parent/guardian to get the student. Swim instructors cannot leave a class unattended to take students to the bathroom. Students will not be allowed to go into the locker room alone.

Do not leave valuables in unlocked lockers in the locker rooms. The security of items in unsecured lockers cannot be guaranteed.
